Education

Bachelor of Technology in Computer Science and Engineering

2019 - 2023

SASTRA Deemed to be University, Kumbakonam, Thanjavur, Tamil Nadu, India.

• **CGPA :- 8.0287**

HSC

2018 - 2019

MLM Mamallan Matric Hr Sec School, Kanchipuram, Tamil Nadu.

• **84.5%**

SSLC

2016 - 2017

Sree Narayana Guru Matric Hr Sec School, Kanchipuram, Tamil Nadu.

• **96.2%**

Skills

Languages: Python, C++, HTML, CSS and JavaScript.

Frameworks: React.js, Node.js, Express.js, Redux.js, Django, Bootstrap, Material UI and jQuery.

Technologies: Git Version Control, Postman API and Cloud Hosting Services.

Others: Data Structures & Algorithms.

Projects

Implementation Of Storage as a Service (STaaS) using Cloud NAS

- Built a STaaS in which a user can store and retrieve files in the Cloud.
- Tools and Technologies used: React.js, Node.js, Express.js, MongoDB, HTML, JavaScript, CSS and Git.
- Check out this link to view this site - cloudstorageplatform.netlify.app

Diabetes Prediction by Comparing Different Machine Learning Algorithms

- Built a Diabetes prediction site which helps to predict the Diabetes with help of Machine learning.
- Tools and Technologies used: Python, Django, HTML, CSS, Javascript and Pythonanywhere.
- Check out this link to view this site - mldiabetespredictor.pythonanywhere.com.

Personal Portfolio Site

- Built a personal portfolio site which provides information about me, what I do and how to contact me.
- Tools and Technologies used: React.js, HTML, CSS, JavaScript, Material UI, Bootstrap, Email.js and Netlify.
- Check out this link to view my site - jaividyasagar.netlify.app

Certifications

• MERN Stack • DSA • Python • Problem Solving • HTML & CSS • TCS iON • Soft Skills

Achievements

- Solved 650+ Data Structures & Algorithms Problems on LeetCode - 33K Rank across worldwide

Interests

• Full Stack Web Development • Problem Solving • Machine Learning • UI/UX • Flutter Development
